

Connecting the world's best Chinese
sellers to global marketplaces

SHENZHEN, CHINA

THE PROBLEM WE SOLVE

Marketplaces can't efficiently access China's best sellers from the outside.

Internal vetting teams process whoever applies — they don't source proactively. The result: mixed seller quality, catalog gaps, and missed GMV.

WHO WE ARE

A Shenzhen-based seller acquisition company.

Founded by a former Amazon strategic partnerships manager and McKinsey consultant. 15+ years operating inside China's manufacturing and e-commerce ecosystem.

WHAT WE DO

One thing — seller acquisition.

< We identify, qualify, and deliver experienced Chinese sellers that match a marketplace's specific category needs. >

We don't do account management, advertising, or logistics. We find the right sellers and get them to the platform ready to perform.
